

CLEAN SPECIAL

Detergent with a slightly alkaline base for cleaning and upkeep of all hard and resilient floorings such porcelain stoneware, ceramic, marble, granite,

APPLICATIONS

CLEAN SPECIAL is an excellent, multi-purpose, concentrated, alkaline detergent with high active chemicals and low foaming action. It contains special emulsions, biodegradable hydro alcoholic and wetting agents. **CLEAN SPECIAL** has excellent performances on a large range of floorings, such as marble, polished granite, klinker, ceramics, standard and polished porcelain stoneware, grits, marble agglomerates and natural stones.

HOW TO USE

Dilution: According to the amount of dirt to be removed.

Application: For an appropriate ordinary cleaning, apply **CLEAN SPECIAL** diluting 50-100 gr. In 10 litres of water. For cleaning options, a mop, cloth or a floor-washing machine should be used. Apply the solution on the floor, let it be active for about 5 minutes, then clean using a rag or the floor-washing machine; rinse well and dry. When using a single-brush machine for cleaning, this one should be equipped with soft or middle-soft disks.

PRECAUTIONS

Never use **CLEAN SPECIAL** on textile floorings or on non-varnished wood.

COVERAGE

According to the dirt level.

WARNINGS

The MSDS is available upon request.

Drum of 5 kg. Box of 6 pcs
Tank of 10 kg/25 kg

HANDLING AND STORAGE

The product must be stored in the original containers, perfectly sealed, at a temperature between 0 and 30°C and shielded from direct sunlight. In these conditions, the product has a self-life of 12 months of the date quoted in the delivery note. If the material has been stored for longer than its recommended self-life, it might still be suitable, but this has to be determined beforehand by performing quality checks on its application-related properties.

LIMITS OF RESPONSIBILITY

We decline all responsibility for work and damage which might

result from improper or incorrect use of the product. The indications supplied with our product specifications and instructions for use are the results of accurate laboratory tests and experience in the field. However, as it is not possible to forward other evidence, when the products are used, these indications shall not be binding and do not imply liability on our part.

As well as following good working practices, before applying the product we recommend you read the safety recommendations and the directions on the package.

For the best professional results, it is advised to test a small area first, for compatibility with the surface to treat and the desired effect. This preliminary testing is also useful to determine the consumption according to the characteristics of the material the product will be used for and to the type of processing.
