

LINFASTONE POLISH

An ecological cream containing beeswax, designed to protect kitchen counter tops, bathroom vanities, walls, columns, monuments and window sills. A polishing/cleansing detergent to maintain anything made of polished marble or granite

APPLICATIONS

LINFASTONE POLISH is a gentle polish, easy to apply, containing a high concentration of beeswax. Specially formulated to clean and maintain polished granite and marble, agglomerates, etc.

This product is particularly well suited to the care, restoration and cleaning of all polished stone found in the bathroom and kitchen. It may be used on columns, gravestones, walls, thresholds, window sills and sculptures. Interior use only, not to be used on floors.

LINFASTONE POLISH has excellent nourishing properties and creates a durable surface with the unique ability to repel dust.

HOW TO USE

The product is ready to use.

Shake the bottle well before application, pour a few drops on a soft, clean, white and dry piece of cloth, spread the cream evenly on the surface. Use sparingly. Allow the product to dry for a few minutes, then rub energetically to make the surface come to a brilliant shine. (Wait at least 30 minutes before putting foodstuffs on the treated surface).

All-natural stones should be protected with the impregnator

KERASTONE (stainproof water and oil repellent) or IDROBASE 303 (24 hours before starting treatment with LINFASTONE POLISH).

A test in a small inconspicuous area is suitable.

PRECAUTIONS

Store at room temperature.

WARNINGS

To refer to the MSDS is available upon request.

PACKAGING

Bottle of 500ml. Box of 12/24 pcs

HANDLING AND STORAGE

The product must be stored in the original containers, perfectly sealed, at a temperature between 0 and 25°C and shielded from direct sunlight at ventilated area. In these conditions, the product has a self-life of 12 months of the date quoted in the delivery note. If the material has been stored for longer than its recommended self-life, it might still be suitable, but this has to be determined beforehand by performing quality checks on

LIMITS OF RESPONSIBILITY

We decline all responsibility for work and damage which might

result from improper or incorrect use of the product or inadequate storage. The indications supplied with our product specifications and instructions for use are the results of accurate laboratory tests and experience in the field. However, as it is not possible to forward other evidence, when the products are used, these indications shall not be binding and do not imply liability on our part. As well as following good working practices, before applying the product we recommend you read the safety recommendations and the directions on the package.

For the best professional results, it is advised to test a small area first, for compatibility with the surface to treat and the desired effect. This preliminary testing is also useful to determine the consumption according to the characteristics of the material the product will be used for and to the type of processing.
