

Quartz Liv

Let's shine

Mixture of selected quartz

25 kg
bag

CHARACTERISTICS

QUARZ LIV is a blend consisting of highly pure, washed, and oven-dried selected quartz. It is used with epoxy or polyurethane resin systems for the creation of protective coatings, grouting, repairs, etc.

HOW TO USE

Refer to the technical data sheets of the resin or cement products that will be applied.

INDICATIVE COVERAGE

Depends on the intended use.

LIMITS OF RESPONSIBILITY

We decline all responsibility for work and damage which might result from improper or incorrect use of the product. The indications supplied with our product specifications and instructions for use are the results of accurate laboratory tests and experience in the field. However, as it is not possible to forward other evidence, when the products are used, these indications shall not be binding and do not imply liability on our part. As well as following good working practices, before applying the product we recommend you read the safety recommendations and the directions on the package. For the best professional results, it is advised to test a small area first, for compatibility with the surface to treat and the desired effect. This preliminary testing is also useful to determine the consumption according to the characteristics of the material the product will be used for and to the type of processing. The reproduction, even partial of this product sheet is forbidden. The data refer to the standards in force at the time of printing, 2013. The company reserves the right to make any changes without notice.
